Publication list

Sensitivity to CAAs in *Plasmopara viticola* and *Pseudoperonospora cubensis*

→ Cross resistance between CAAs and inheritance of resistance in *P. viticola* field and progeny isolates

→ Cross resistance between CAAs in *P. viticola*

→ Resistant field isolates

Sensitivity to CAAs in *Phytophthora infestans*

→ Artificial mutants of *P. infestans* to DMM

→ Baseline sensitivity and enforced selection
→ Artificial mutants of P. infestans to DMM

→ Artificial mutants of P. infestans to DMM

→ Artificial mutants of P. infestans to MPD

→ Artificial mutants of P. infestans to DMM

→ Artificial mutants of Phytophthora capsici and P. infestans to DMM

→ Artificial mutants of P. infestans to flumorph
